HWB INSPIRATION ARE HERE TO HELP

WE CAN SUPPORT YOU ON YOUR JOURNEY TO IMPROVING WORKPLACE HEALTH AND WELLBEING

Who are HWB Inspiration?

Health and Wellbeing ("HWB") Inspiration is a collaborative effort founded by two organisations, PACE and Aspire, to help other organisations achieve a healthy workplace by keeping their staff happy, healthy, and in work.

We achieve this through our evidence-based strategic approaches, as well as the easy-to-use toolkit you are reading now. We offer these tools to organisations in order to provide a bespoke service to suit their needs.

Over the last 10 years we have worked to help individuals, teams and organisations develop and implement strategies to achieve high performance. We have worked with a range of private and public sector organisations including health, education, law, local government, voluntary sector, and other industries.

THE COST OF AN UNHEALTHY WORKPLACE

IS LIKELY HIGHER THAN YOU THINK, BUT CAN BE OFFSET BY A GOOD STRATEGIC APPROACH

SICKNESS
ABSENCE
COSTS
£554
PER YEAR

X

=

£1000's!
(OR MAYBE MORE)

What is the cost of an unhealthy workplace?

Employee sickness impacts organisational performance and profit:

- The annual cost of sickness absence for UK businesses is around £554 per employee (The Chartered Institute of personnel and development [CIPD] 2018)
- The annual cost of mental health related presenteeism (people coming to work and underperforming due to ill-health) is £605 per employee (CIPD / MIND 2011)

Mental ill health is now the most common cause of long-term absence from work:

- Mental ill health is the most common cause of long-term absence accounting for 59% (CIPD 2019)
- It costs £3.1 billion to replace staff who leave their jobs due to mental ill-health each year (Centre for Mental Health 2017)

Work contributes to mental ill health for over half of UK employees:

- 61% of UK employees have experienced a mental health issue due to work or where work was a contributing factor, and 33% of the UK workforce have been formally diagnosed with a mental health condition at some point in their life (Business in the community 2018)

Developing a strategic approach to health and psychological wellbeing can positively impact on your organisations through:

- Business performance
- Employee morale and engagement
- Organisational citizenship
- Attendance i.e. sickness absence and presenteeism
- Behaviours i.e. innovation and creativity (Robertson 2019)

THIS INTERACTIVE TOOLKIT

USES OUR HWB FRAMEWORK TO ASSESS YOUR WORKPLACE

WE CAN CONDUCT THE
ASSESSMENT FOR YOU

WE CAN CONDUCT IT IN
PARTNERSHIP WITH YOU

YOU CAN USE OUR TOOL
TO ASSESS BY YOURSELF

How to fill in the HWB toolkit:

Navigate through the document using the forward / back buttons or labelled tabs. Fill in each sheet using the coloured drop down options, which correspond to how your organisation performs in each health and wellbeing related task (see the key below for more information on each option). This will then generate a personalised dashboard, sharing your performance scores and highlighting areas for improvement.

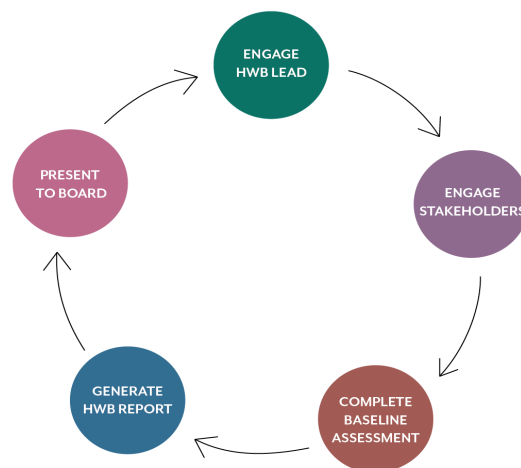

Key:

Fully met - You can show evidence for all of the criteria / indicators within each section of the domain.

Partially met - you can show evidence for some of the criteria within each section of each domain.

Not met - You cannot show evidence for any of the criteria within each section of each domain.

Not applicable - The section in the domain isn't relevant to your organisation.

THE HWB ASSESSMENT FRAMEWORK

ASSESSES FOUR DOMAINS OF WORKPLACE HEALTH & WELLBEING IN A VARIETY OF WAYS

BACKGROUND & BENEFITS:

- The Health & Wellbeing Baseline Assessment Framework (HWBAF) was developed as part of a system wide project across health and care organisations in Manchester in 2017. The project was commissioned by the City of Manchester Health & Wellbeing Board, funded through the Greater Manchester Transformation Challenge Award Fund.
- The purpose of this assessment framework is to help your organisation gain an understanding of the health and wellbeing strategies and interventions in place.
- It is designed to enable your organisation to identify areas of good practice and areas for improvement.
- You can repeat the assessment as often as you wish, to demonstrate progress to your managers and staff.
- The assessment should be considered in conjunction with the six Management Standards from the Health and Safety Executive and triangulated with other data you have such as staff surveys, Occupational Health referral patterns, trends for grievances, etc.
